ABOUT ME

I am a final-year B.Tech student at GKCEM specializing in Computer Science & Engineering. Passionate about web development and eager to apply my skills in real-world projects and gain industry experience.

My journey began with a curiosity for how things work, leading me to master the entire development lifecycle—from defining database schemas to deploying high-availability services on the cloud. I thrive in fast-paced environments, continuously adapting to new technologies to keep my stack state-of-the-art.

Tic-Tac-Toe game

- [Demo](#)

This is a Tic-Tac-Toe game project created as the author's first game. Built using HTML, CSS, and JavaScript, it allows two players to play the classic tic-tac-toe game in the browser. The design includes interactive game logic, winning/draw detection, and a user interface with reset functionality. The project is hosted via GitHub Pages and is part of the author's growing portfolio.
